

Bachelor Exposé Outline

Introduction and Motivation

→ Introduction of your context

- Problems or open issues in the context

→ Research questions

- Research hypothesis
- Sub-research questions

→ Research Method

- Describe your approach

Background

Present some background on related domains and technologies to setup a ground for further discussion.

→ Introduction of domain

→ Context in the domain

→ Related technologies

Related work

Discuss the existing work on exploring the issues

→ Academic research

→ Commercial products

Methodology (or Approach)

→ Theoretical background of all components of your approach

→ Implementation or Experimental Setup Plan

→ Evaluation Plan

Summary

→ Revisit research questions and/or goals and describe how you will answer the research questions or will achieve research goals.
